PET CT and Nuclear Medicine

Reporting timeframes
to meet your needs

15+
YEARS

successful delivery to over
100 NHS Trusts

Reporting of PET CT, lung ventilation and perfusion, renal, bone, thyroid, octreotide and brain perfusion scans and working under the delegation of the local ARSAC licence holder.

www.medica.co.uk

What you can expect from Medica:

Radiologist credentialing criteria:

- Specialist PET CT/NM training - dual trained preferred
- MDT attendance
- Preferred ARSAC licence holder
- Completion of written PET CT experience assessment

Reporting process:

All reports are provided directly back into your local reporting system. Reports are made with access to all wider patient information, reports and imaging.

Software:

Medica use Mirada XD for PET CT reporting. This dedicated software provides our specialist reporters with the tools required to automatically fuse the image data and to identify/track lesions.

Implementation:

Deployed within the standard elective reporting service. There will be a small number of actions to ensure exams are identified, reconstructed correctly and that a suitable reporting panel is applied.

Ongoing support and service management:

- Specialist PET CT/NM training - dual trained preferred
- MDT attendance
- Preferred ARSAC licence holder
- Completion of written PET CT experience assessment

Audit:

All reporting is continuously audited. For reporters in this service the normal audit rate is 5%. Medica appoint suitably qualified and experienced auditors to review performance.

We have a friendly team of account managers based across the UK who would love to hear from you. Meetings can be held at your convenience; over the phone, video call or in person at your hospital.
